SHENKMAN'S APPROACH

- ❖ **STRATEGY:** Since 2010, Shenkman has been successfully managing Opportunistic Credit portfolios using an event-driven strategy that seeks to generate consistent alpha by profiting from mispricing across the corporate credit spectrum. This includes, stressed, distressed, and performing bonds, loans, convertibles, and reorganized equity. The strategy utilizes six investment themes that provide opportunities for consistent alpha: stressed credit, market transition, catalyst-driven long/short, capital arbitrage, restructuring/deep value, and liquidations.
- ❖ **STYLE:** Strong emphasis on fundamentals leveraging Shenkman's proprietary, bottom-up credit research process that has been repeated over a 40-year history.
- ❖ **EXPERIENCE:** Our strategy PMs have significant experience managing and trading stressed and distressed credit and have worked together of over 15 years at Shenkman and Goldman Sachs. They have been able to bring their collective knowledge of market structure, restructuring experience and trading acumen to the Shenkman Opportunistic Credit Strategy.
- ❖ **OWNERSHIP:** Shenkman Capital is one of the largest independently owned asset managers focused on the leveraged finance markets.
- ❖ **TARGET RETURNS*:** Low double-digit net returns over a full market cycle.

DISCLAIMERS

Unless otherwise indicated, the information contained herein is current as of the date indicated. Such information is believed to be reliable and has been obtained from sources believed to be reliable, but no representation or warranty is made, expressed or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of the information and opinions. Additionally, there is no obligation to update, modify or amend this material or to otherwise notify a reader in the event that any matter stated herein, or any opinion, projection, forecast or estimate set forth herein, changes or subsequently becomes inaccurate.

The Shenkman Opportunistic Credit Trust performance herein is based on returns (net of all fees and expenses and reflecting the reinvestment of dividends or other earnings) of shares issued at the Fund's inception, which is based on: (i) a management fee of 1.00% per annum, and (ii) as applicable, a performance fee of 17.5% per annum of the net profits. Gross performance results include reinvestment of interest and other income but are before the deduction of all fees and expenses. Consequently, returns experienced by an investor may differ from those shown herein depending on the timing of such investor's subscriptions and redemptions. No representation is being made regarding the future returns of any investor in any fund or account managed by Shenkman. The assets under management, performance returns and calculations based on those returns are unaudited, other than certain year end information, as applicable. PAST PERFORMANCE IS NOT A GUARANTEE OF FUTURE RESULTS. Actual performance may vary substantially from past performance and may include risk of losses, including total loss.

The Shenkman Capital Opportunistic Credit Composite has an inception date of November 1, 2010, and was created on January 1, 2019, for GIPS® purposes, and consists of all fee-paying, discretionary comparable accounts and sleeves of multi-strategy accounts that employ Shenkman's opportunistic credit strategy. An account will become eligible for inclusion in the Composite as of first day of the third full calendar month following the day the funds are first received, regardless of cash balances on such date. Effective as of January 1, 2019, eligible accounts that are experiencing significant inflows or outflows may be temporarily excluded from the Composite. Gross performance results include reinvestment of interest and other income, but are before the deduction of all fees and expenses, which vary depending on size and type of account and are described in Shenkman Capital's Form ADV, Part 2A. Prospective clients should consider the effect that advisory fees and any other expenses that may be incurred in connection with the account (e.g., operating and investment related expenses) would have on performance results. Net performance results include reinvestment of interest and other income and are net of a management fee of 0.250% (i.e., 1.00% per annum) and a performance fee of 17.5% per annum of the net profits, the highest advisory fee that can be charged to an account within the Composite, but do not reflect the deduction of any other fees and expenses. A copy of Shenkman Capital's ADV, Part 2A is available upon request. Performance information is calculated in U.S. Dollars is unaudited and is for illustration purposes only and does not reflect the performance of any one account. Past performance is not a guarantee of future results. Unless otherwise stated, any exposure, issuer, security, or similar classification (each a "Classification") was determined by the Shenkman Group by assigning such Classification as the Shenkman Group deemed appropriate. The assignment of any Classification may have been determined with the benefit of hindsight. The determination of any Classification may have changed over time and is subject to change in the future at the sole discretion of the Shenkman Group. The Shenkman Group has no obligation to provide notice of any change to any Classification.

Clearway Capital Solutions Pty Ltd. (the "Endorser") is not a current client of, or investor in a private fund advised by, Shenkman Capital Management, Inc. (the "Firm") and is receiving cash or non-cash compensation for providing this endorsement. Endorser acts as a non-exclusive solicitor with respect to the introduction to the Firm of certain potential investors in the commingled investment vehicles sponsored or managed by the Firm or its affiliates (each, a "Fund") and potential advisory clients on behalf of which the Firm would manage a separately managed account (each, a "Client"), and, in that capacity, is not acting as investment advisor to prospective investors in the Fund or prospective Clients. Potential investors must make their own investment decisions regarding a potential investment in the Fund and potential Clients must make their own decisions regarding a potential engagement with the Firm. Endorser is not a current advisory client of the Firm. For providing solicitation and other services with respect to certain investors who invest in the Fund or engage the Firm as a Client, Endorser will receive placement fees and other compensation (the "Fees"). Fees include (a) a \$100,000 annual retainer and (b) a fee share on management fee revenue received by the Firm from investors in Funds and Clients from whom the Firm is entitled to a performance fee. If the management fee paid by a Client or an investor in Funds exceeds 75 bps, the management fee share percentage shall be 35%, 30%, 25% and 20% for the first, second, third and fourth years respectively. If the management fee paid by a Client or an investor in Funds exceeds 36 bps but is equal to or lower than 75 bps, the management fee share percentage shall be 25%, 20%, 15% and 10% for the first, second, third and fourth years, respectively. If the management fee paid by a Client or an investor in Funds is equal to or lower than 35 bps, the management fee share percentage shall be 20%, 15%, 10% and 5% for the first, second, third and fourth years, respectively. The Fees will generally continue to be payable during the first four years following the investor's investment in the Fund or engagement of the firm as a Client. With respect to the Shenkman Opportunistic Credit Trust, a management fee share of 15 bps per annum payable for a period of five years. The Endorser's expenses will not be reimbursed without the Firm's consent. The Fees and expenses ultimately will be borne directly or indirectly by the Firm. Therefore, the cost to an investor of an investment in the Fund is not increased by the Fees paid to Endorser. As a result of the Fees, Endorser has a significant economic incentive to solicit investors to invest in the Fund or engage the Firm as a Client, resulting in a material conflict of interest. Endorser also may seek to do business with and earn fees or commissions from affiliates of the Firm, as well as with other third-party fund sponsors that may have similar or different investment objectives from the Fund. Accordingly, potential investors should recognize that Endorser's participation with respect to the introduction to the Firm of certain potential investors in the Funds and potential Clients potentially will be influenced by its interest in such current or future fees and commissions, including differentials in the placement fees that are offered by Endorser or other third party fund sponsors for which Endorser acts as solicitor or placement agent. The Endorser also provides additional services to the Shenkman Opportunistic Credit Fund for cash compensation.
